

SHYAM ELECTRO MECH SOLUTION

Excellence in Action — Complete Electrical & Mechanical Solutions

The standard behind every Substation, Plant Electrification Package, and O&M commitment we deliver — with 360° electrical services and 100% client satisfaction.

Substations · Plant Electrification · Control Panels · Testing & Audits · HVAC · O&M

Who We Are

At Shyam Electro Mech Solutions, we aim to solve your electrical challenges by providing 360° electrical services — from design and engineering to commissioning and O&M. We ensure 100% client satisfaction while continuously adapting to evolving technology.

360° Electrical Services

Substations, plant electrification, and full O&M support under one roof.

Total Solution Provider

End-to-end expertise: design, erection, testing & commissioning.

Client-First Culture

100% satisfaction backed by continuous innovation and responsive support.

Our Core Services

From custom panel manufacturing to turnkey project delivery — we are your single-source electrical partner.

Control Panel Manufacturing

Custom-built MCC, PCC, VFD, APFC & PLC panels for any requirement.

Installation & Commissioning

Transformers, HT/LT panels, VFDs, PLCs — expertly installed.

Testing & Audits

Relay coordination, short circuit, arc flash analysis & licensed contractor services.

AMC & Shutdown Services

Affordable annual maintenance contracts with emergency support.

Panel Sales & Service

We supply, install, and service a complete range of electrical panel systems for industrial and commercial facilities.

Power & Motor Control Centres

PCC and MCC panels for industrial power distribution.

VFD, APFC & PLC Panels

DG synchronization, power factor correction, and automation panels.

Bus Ducts & Distribution

Lighting panels, power distribution panels, and bus duct systems.

Products We Supply

From high-voltage transformers to precision control components — we supply everything your facility needs.

Power Equipment

Transformers, switchgears, ring main units, meters, cable trays.

Electrical Components

Cables, wires, jointing kits, cable glands, earthing sets, transformer oil.

Control & Automation

Voltage stabilizers, power capacitors, LED lighting, low voltage switchgear.

Testing & Maintenance

Our certified technicians perform rigorous testing and maintenance to keep your electrical systems safe, compliant, and at peak efficiency.

01

Transformer Servicing

Routine testing per IS standards; oil filtration to enhance insulation and transformer life.

02

Relay Testing

Primary & secondary injection kit testing for precise relay coordination.

03

Loop Impedance & RCD Testing

Loop impedance, RCD (10mA–1000mA), auto RCD & no-trip loop testing.

04

HT Panel & RMU Servicing

Full servicing of HT panels, RMUs and auto reclosers up to 33 KV.

Specialized Systems

Beyond electrical — we deliver complete mechanical, HVAC, fire safety, and pipeline solutions for industrial and commercial environments.

Fire & Security Systems

SITC of fire suppression systems, plant PA systems, and fire fighting systems.

HVAC Solutions

Design, supply, installation, testing & commissioning of air-conditioning and chilled water systems.

Mechanical & Pipeline

Plant pipeline work, mechanical fabrication, and chilled water system installations.

Industrial Automation Partners

Authorised sales & service partners for the world's leading automation brands — VFDs, PLCs, HMI systems, servo drives, and more.

Siemens

Schneider Electric

ABB

Mitsubishi Electric

Rockwell Automation

Honeywell

**FANUC • Omron •
Yokogawa**

Quality & Safety Commitment

Every project is governed by strict quality standards, safety protocols, and environmental responsibility — no exceptions.

Quality

No compromise on standards. Timely delivery, continuous improvement, and immediate action on client feedback.

Safety

Licensed staff, full PPE (helmet, gloves, safety belt), and employee training certified up to 66 KV.

Environment

Regulatory compliance, pollution prevention, waste reduction, and responsible contractor practices.

Get in Touch

Ready to power your next project? We'd love to hear from you.
